

Remote Work & Hybrid Workplace Policy

CATEGORY	Workforce Flexibility Hybrid Work Operations	EFFECTIVE DATE	January 1, 2026	REVIEW CYCLE	Annual Corporate Audit
----------	--	----------------	-----------------	--------------	------------------------

Article 1. Hybrid Workplace Operating Framework & Attendance Expectations

1.1 Hybrid Scheduling, Mandatory In-Office Days & Geographic Eligibility

Nexus Corporation embraces a modern, flexible hybrid work philosophy that balances the productivity of focused remote work with the innovation, cultural connection, and mentorship achieved through in-person collaboration. Under our hybrid operating model, regular full-time employees in eligible roles may work remotely up to 3 days per week, with a mandatory minimum of 2 days per week spent on-site at their designated regional office hub. To maximize collaborative synergy across cross-functional teams, Tuesday and Thursday are established as corporate-wide Mandatory In-Office Days for all hybrid personnel residing within 50 miles of an office hub.

Employees residing more than 50 miles from any Nexus facility may be classified as Designated Fully Remote upon written approval from the Department Vice President and Chief People Officer. Fully remote employees are required to attend quarterly on-site department summits and annual corporate kickoffs, with business travel, lodging, and meals fully covered under the corporate travel policy. Essential on-site personnel—such as data center engineers, hardware lab technicians, and facilities staff—are not eligible for hybrid schedules.

Workforce Classification	In-Office Cadence Mandate	Geographic Radius Rule	Core Collaboration Expectations	Travel Reimbursement
Hybrid Personnel (Standard)	Tuesdays & Thursdays Mandatory (2 days/wk)	Residing within 50 miles of hub	In-person meetings, team design sprints	Standard local commuting rules
Designated Fully Remote	Quarterly on-site summits only	Residing > 50 miles from any hub	Virtual attendance; quarterly travel	Corporate travel policy covers summits
Essential On-Site Personnel	Monday through Friday On-Site (5 days/wk)	Assigned to physical lab / datacenter	Direct physical systems maintenance	Eligible for on-site differential
Temporary Remote Exception	Approved duration (up to 30 days)	Temporary personal/medical necessity	Full remote deliverables & availability	No travel reimbursement
Interns & Apprentices	Tuesdays, Wednesdays & Thursdays (3 days)	Must reside within commute radius	In-person mentorship & paired work	Standard local commuting rules

- Attendance on designated mandatory in-office days is tracked via automated keycard badge swipes at facility entry turnstiles.
- Unexcused absenteeism on mandatory in-office days exceeding two occurrences in a quarter results in revocation of remote privileges.
- Employees may request to switch their designated remote days with 48 hours advance notice and written manager approval.

CORE COLLABORATION DAY MANDATE:

Tuesdays and Thursdays are dedicated to high-bandwidth creative collaboration, one-on-ones, sprint planning, and architectural reviews. Team leads must schedule major collaborative rituals on these days and avoid heavy all-day isolated coding blocks.

Article 2. Home Office Ergonomic Setup Stipend & High-Speed Internet Allowance

2.1 One-Time Ergonomic Setup Reimbursement & Ongoing Monthly Internet Subsidy

To ensure that all employees have a safe, ergonomic, and highly productive home working environment, Nexus provides a comprehensive financial subsidy package. All full-time regular hybrid and remote employees receive a One-Time Home Office Setup Stipend of \$500. This stipend covers ergonomic task chairs, sit-stand motorized desks, external monitors, keyboard and mouse peripherals, laptop riser stands, and noise-canceling headsets. Purchases must be submitted via Navan Expense within 60 calendar days of employment commencement.

In addition, Nexus provides all active hybrid and remote employees with an ongoing High-Speed Internet Allowance of \$50 per month, disbursed automatically as a non-taxable reimbursement on the second bi-weekly payroll of each month. Remote employees must maintain a stable broadband internet connection with a minimum download speed of 100 Mbps and upload speed of 20 Mbps, capable of supporting continuous HD video conferencing, cloud development environments, and secure VPN data tunnels simultaneously without latency spikes.

Allowance Category	Funding Allocation	Eligibility Window	Approved Eligible Items	Documentation Required
Home Office Ergonomic Stipend	\$500 one-time reimbursement	First 60 days of employment	Ergonomic chair, desk, monitor, keyboard, riser	Itemized retail purchase receipts
Monthly High-Speed Internet	\$50 per month (\$600 / year)	Ongoing for all hybrid/remote staff	Broadband ISP, fiber, cable, mesh Wi-Fi gear	Automated payroll credit (No receipts)
Corporate Hardware Bundle	Provisioned by IT Logistics	Shipped prior to start date	MacBook Pro / ThinkPad, YubiKey, dock, monitor	Asset custody acknowledgment signed
Ergonomic Medical Subsidy	Up to \$300 additional	Upon physical therapist consult	Orthopedic chair pads, vertical mice, footrests	PT ergonomic evaluation form
Mobile Phone Reimbursement	\$40 per month (Role-dependent)	Sales, On-Call Engineers, Managers	Cellular voice & mobile hotspot data plans	Navan Expense monthly submission

- Equipment purchased with the \$500 stipend becomes the personal property of the employee and does not require return upon separation.
- Employees are responsible for assembling and maintaining home furniture in compliance with OSHA home ergonomic safety guidelines.
- If home internet service suffers an extended outage exceeding 4 hours, employees must report to the nearest office hub or use mobile hotspot.

BROADBAND SPEED REQUIREMENT:

Remote employees must maintain broadband speeds of at least 100 Mbps down / 20 Mbps up. Conduct quarterly speed tests at speedtest.net and retain screenshots in case of network troubleshooting escalations with corporate IT support.

Article 3. International Remote Work Program ('Work from Anywhere')

3.1 20-Day Global Mobility Allowance, Tax Residency Rules & Country Restrictions

Nexus Corporation recognizes the profound value of global mobility and personal flexibility. Under our innovative 'Work from Anywhere' (WFA) program, full-time regular employees in good standing may work remotely from an approved international location for up to 20 business days per calendar year. This program allows employees to extend personal overseas vacations, visit extended family abroad, or explore new cultural destinations while continuing to deliver full-time business results without consuming annual PTO balances.

To ensure absolute compliance with international labor laws, permanent establishment corporate tax exposure, and export control regulations, all international remote work must be pre-approved at least 30 calendar days in advance via the Global Mobility Portal. Remote work is strictly prohibited from countries subject to US Treasury Office of Foreign Assets Control (OFAC) trade sanctions or State Department Level 4 Travel Advisories. Employees must execute a statutory Tax and Legal Affidavit confirming they will not establish local tax residency.

Global Mobility Tier	Maximum Duration	Advance Notice SLA	Eligible Destinations	Approval Authority
Standard Global WFA	Up to 20 business days / calendar year	At least 30 calendar days prior	Approved Tier 1 & 2 countries (EU, UK, JP, etc.)	Manager + Global Mobility HR
Emergency Compassionate WFA	Up to 15 additional business days	72 hours notice (emergency)	Family medical crisis abroad	VP of People Operations
High-Risk Security Countries	STRICTLY PROHIBITED (0 days)	N/A (Automated network block)	OFAC sanctioned; ITAR / EAR restricted zones	No exceptions permitted by law
Domestic Out-of-State WFA	Up to 30 calendar days / year	14 calendar days advance notice	Any US state / territory with legal nexus	Direct Line Manager approval
Cross-Border Relocation	Permanent relocation pathway	6 months formal legal review	Countries where Nexus maintains legal entity	Executive Committee + Legal

- Employees working abroad must maintain core collaboration hours overlapping with their home team by at least 4 contiguous hours daily.
- All corporate data access while abroad must route through Palo Alto GlobalProtect VPN; public Wi-Fi is strictly banned without VPN.
- Violating the 20-day limit triggers foreign tax withholdings, local labor law penalties, and potential employment termination.

OFAC SANCTIONED COUNTRY BAN:

Connecting corporate devices to Nexus systems from OFAC-sanctioned jurisdictions (Cuba, Iran, North Korea, Syria, Crimea/Donetsk/Luhansk) is a federal crime. Automated geo-blocking terminates network access instantly upon detection and notifies federal authorities.

Article 4. Information Security, Endpoint Protection & GlobalProtect VPN

4.1 Secure Remote Computing, Palo Alto VPN & Removable Media Controls

Remote work environments introduce distinct cybersecurity threat vectors that require rigorous technical and behavioral safeguards. All remote work must be conducted exclusively on corporate-issued, encrypted hardware provisioned and managed by Nexus IT Operations. The use of personal desktop computers, personal laptops, shared household tablets, or public internet cafe terminals to access corporate email, Slack, GitHub, Jira, or customer databases is strictly forbidden and constitutes a terminable security violation.

Whenever connecting to corporate cloud resources, remote employees must authenticate through the Palo Alto GlobalProtect Virtual Private Network (VPN) using full tunnel encryption. Multi-factor authentication via Okta Verify Push or FIDO2 hardware YubiKeys is mandatory on all logins. Endpoint protection agents—including CrowdStrike Falcon EDR, Jamf Pro (macOS), and Microsoft Intune (Windows)—must remain active, uninhibited, and updated at all times. Physical USB mass storage ports are permanently disabled on all laptops.

Security Control	Technical Standard	Employee Obligation	Monitoring & Verification	Sanction for Non-Compliance
Always-On Corporate VPN	Palo Alto GlobalProtect AES-256	Connect before accessing any tools	Automated network telemetry logs	Account lock upon external direct hit
Multi-Factor Authentication	FIDO2 YubiKey or Okta Verify Push	Never share or approve unknown push	Okta Identity Engine risk scoring	Immediate credential revocation
Endpoint Detection & EDR	CrowdStrike Falcon active sensor	Never attempt to disable or tamper	24/7/365 SOC continuous monitoring	Immediate device isolation by SOC
Screen Privacy & Clean Desk	3M Privacy filters in public spaces	Lock screen when leaving desk (Win+L)	Periodic remote audit checks	Formal written security warning
Local Data Storage Bans	All files saved to Google Drive / Git	Zero customer PII on local desktop	DLP automated file scanning agent	Forensic wipe; disciplinary action

- Laptops must never be left unattended in vehicles, coffee shops, airport waiting lounges, or hotel conference rooms.
- In the event of a lost, stolen, or compromised device, notify security@nexus-corp.internal immediately (within 1 hour max).
- IT Security initiates automated cryptographic remote wipes within 15 minutes of any confirmed device loss report.

PUBLIC WI-FI SECURITY WARNING:

Connecting to unencrypted public Wi-Fi networks (airports, hotels, cafes) without active GlobalProtect VPN is strictly prohibited. Use cellular mobile hotspot tethering whenever secure, password-protected private Wi-Fi is unavailable.

Article 5. Core Collaboration Hours, Asynchronous Communication & Availability

5.1 Synchronous Overlap, Slack Protocols & Response Time Service Levels

Effective distributed teamwork requires clear, transparent communication norms and shared expectations around availability. All hybrid and remote employees are required to be online, logged into Slack and Google Workspace, and actively accessible during Corporate Core Collaboration Hours from 10:00 AM to 4:00 PM local time across their designated regional operational time zone. Core hours represent the designated window for cross-functional standups, client meetings, design reviews, and synchronous alignment.

Outside core collaboration hours, Nexus champions asynchronous communication workflows to promote sustained deep focus and work-life balance. Employees are not expected to monitor or respond to work emails or Slack messages outside their standard 8-hour workday, during weekends, or while on approved PTO. For urgent

operational emergencies outside standard hours, documented on-call rotations utilizing PagerDuty will alert designated engineers via phone calls with accompanying on-call premium compensation.

Communication Channel	Primary Purpose	Expected Response Time (Core)	Etiquette Standard	Off-Hours Expectation
Slack Direct Messages	Urgent questions, real-time unblocking	Within 60 minutes during core hours	Clear, professional, concise text	Do Not Disturb (DND) respected
Slack Public Channels	Project discussions, team updates	Within 2 to 4 business hours	Threaded replies; tag @here sparingly	No response expected off-hours
Corporate Email (Gmail)	Formal agreements, external client notes	Within 24 business hours	Professional formatting, clear subjects	No response expected off-hours
Zoom Video Conferences	Interactive design, 1-on-1s, sprints	Punctual attendance at scheduled time	Camera on during small meetings	Scheduled within core hours only
PagerDuty Emergency Alert	Critical production outages (Sev-1)	Acknowledge within 15 minutes	On-call engineer immediate triage	Compensated on-call rotation

- Employees stepping away from their desk for more than 30 minutes during core hours must update their Slack status accordingly.
- Meeting-Free Thursdays: All Thursdays from 1:00 PM to 5:00 PM are designated focus time with zero internal meetings permitted.
- Non-exempt employees must never send Slack messages or check email after clocking out at the end of their shift.

MEETING ETIQUETTE & RECORDING CONSENT:

All virtual meetings with external parties or team recordings require explicit notification of attendees prior to recording. Recordings must be saved to authorized secure corporate repositories with 90-day automated lifecycle deletion policies.

Article 6. Ergonomic Standards, Workspace Safety & Remote Workers' Compensation

6.1 OSHA Remote Work Compliance, Home Hazard Mitigation & Injury Reporting

Nexus Corporation is committed to protecting the occupational health and physical safety of remote employees in full compliance with OSHA standards. Remote employees are required to maintain a dedicated, clean, quiet, and hazard-free home workspace. The home workstation must feature adequate illumination, properly grounded electrical outlets (prohibiting daisy-chained extension cords), clear walking pathways free of trip hazards, and ergonomic positioning of computer monitors, seating, and input peripherals.

Remote employees are covered by Workers' Compensation Insurance for work-related injuries or occupational illnesses sustained while performing official job duties within their designated home workspace during scheduled working hours. Coverage does not extend to non-work areas of the home (kitchens, yards, garages) or injuries sustained during personal activities. Any work-related injury must be reported to People Operations and Facilities within 24 hours of occurrence via the Safety Desk portal to ensure prompt statutory claim filing.

Safety & Health Dimension	OSHA Regulatory Reference	Home Workstation Standard	Verification & Self-Audit	Reporting Channel
Ergonomic Posture & Seating	OSHA Ergonomics Guidelines	Adjustable chair with lumbar support; 90° elbow	Annual self-assessment photo audit	Safety Desk portal ticket
Electrical Safety & Outlets	OSHA 29 CFR 1910.303	Grounded 3-prong outlets; UL-listed surge strips	Self-certified inspection checklist	Facilities advisory ticket
Fire Prevention & Egress	OSHA 29 CFR 1910.36	Working smoke detector; clear 36" exit pathway	Annual home safety attestation	HR Annual Attestation module
Work-Related Injury at Home	State Workers' Comp Statutes	Occurring during official work performance	Formal incident investigation by HR	Report in 24 hours to People Ops
Virtual PT Ergonomic Consult	Corporate Wellness Program	1-on-1 virtual evaluation by licensed PT	Available upon employee request	Modern Health / Hinge Health app

- All remote employees must complete the mandatory Home Office Ergonomic Self-Assessment in Workday within 30 days of hire.
- Nexus reserves the right to conduct virtual or in-person health and safety inspections of home workspaces upon reasonable notice.
- Ergonomic accessories recommended by a licensed physical therapist are 100% reimbursed up to the \$300 supplemental limit.

WORKERS' COMP INJURY REPORTING SLA:

Report any occupational accident or injury sustained while working remotely to People Operations at hr-safety@nexus-corp.internal within 24 hours. Failure to report promptly may jeopardize statutory workers' compensation insurance claim validity.

Article 7. Interstate Domestic Relocation, Tax Nexus & Geographic Pay Banding

7.1 Mandatory 60-Day Relocation Notice, Corporate Tax Nexus & State Withholding

Because employee residence locations trigger complex state and municipal payroll tax withholding, corporate income tax nexus, unemployment insurance liabilities, and state-specific labor law obligations, remote employees may not relocate their primary residence without prior written authorization from People Operations and Legal Compliance. Employees planning an interstate relocation must submit a formal Relocation Request via the Employee Portal at least 60 calendar days prior to the planned move date.

Nexus Corporation maintains legal employment entities in designated US states. If an employee requests relocation to a jurisdiction where Nexus does not currently maintain a registered business entity, the request may be denied or require executive approval. Additionally, compensation at Nexus is benchmarked against regional geographic cost-of-labor tiers (Tier 1: SF/NYC/Seattle; Tier 2: Austin/Denver/Chicago; Tier 3: General US). Relocating across tiers triggers an automatic base salary calibration.

Geographic Pay Tier	Metropolitan Reference Markets	Pay Differential Benchmark	Tax Nexus Registration	Relocation Notice Window
Tier 1 (High Cost of Labor)	San Francisco, New York City, Seattle, San Jose	100% Base Benchmark (Standard)	Nexus active corporate entity	60 Calendar Days advance notice
Tier 2 (Medium Cost of Labor)	Austin, Denver, Boston, Chicago, Los Angeles	90% - 95% of Tier 1 Benchmark	Nexus active corporate entity	60 Calendar Days advance notice

Tier 3 (National Standard)	All other US metropolitan and rural regions	80% - 85% of Tier 1 Benchmark	Registration check required	60 Calendar Days advance notice
Unregistered State Request	Jurisdictions without current Nexus entity	Case-by-case legal review	Requires Secretary of State filing	90 Calendar Days advance notice
Temporary Relocation (<60d)	Temporary stay while maintaining primary home	No salary adjustment applied	No state tax nexus triggered	14 Calendar Days advance notice

- Relocating without prior HR authorization constitutes unauthorized absence and gross misconduct resulting in termination.
- Salary adjustments resulting from geographic tier moves take effect on the first payroll cycle following confirmed residency.
- Nexus does not provide moving or relocation expense reimbursements for voluntary employee-initiated relocations.

UNAUTHORIZED RELOCATION PENALTIES:
Moving your primary tax residence without notifying People Operations creates severe tax penalties and civil liability for unpaid state payroll taxes. Employees are personally liable for back taxes and penalties arising from undisclosed relocations.

Article 8. Performance Accountability, Deliverables Tracking & Remote Eligibility

8.1 Objective Milestones, Productivity Metrics & Revocation of Remote Privileges

Remote work at Nexus Corporation is an earned operational privilege, not an unconditional statutory entitlement. Continued eligibility for remote and hybrid work is contingent upon sustained high performance, punctuality, active communication, and the consistent attainment of quarterly Objectives and Key Results (OKRs). Performance is evaluated based on concrete work output, code commits, customer deliverables, and milestone completion, rather than mere physical or digital presence.

If an employee performance drops below acceptable standards—evidenced by an overall rating of Tier 2 (Partially Meets) or Tier 1 (Unsatisfactory), missed deadlines, unresponsiveness during core hours, or placement on a Performance Improvement Plan (PIP)—the department manager, in consultation with People Operations, may immediately suspend or permanently revoke remote work privileges. Employees whose remote privileges are revoked must report to the nearest regional office hub on a full-time 5-day on-site basis.

Performance Criterion	Measurement Metric	Satisfactory Standard	Underperformance Trigger	Action / Sanction
OKR Goal Attainment	Quarterly deliverable completion %	At least 85% of planned deliverables	Below 70% completion for two quarters	Placement on 30-day PIP; remote review
Core Hours Availability	Slack responsiveness & standup attendance	Active 10:00 AM - 4:00 PM local	Unexplained unreachability > 3 times	Formal counseling; in-office mandate
Quality of Deliverables	Peer review scores & QA error rates	Meets or exceeds team engineering SLAs	Frequent rework, high bug escape rates	Mandatory paired work on-site
Meeting Participation	Attendance at required team ceremonies	100% attendance (absences pre-excused)	Missed client meetings or sprint standups	Manager written warning in file
Overall Performance Rating	Annual Lattice appraisal score	Tier 3 (Meets Expectations) or above	Tier 1 or Tier 2 rating	Revocation of remote work status

- Revocation of remote privileges requires 14 calendar days written advance notice to allow the employee to arrange commuting.
- Employees on a formal PIP are required to work on-site 5 days a week during the PIP duration to facilitate intensive coaching.
- Remote privileges may be reinstated after 6 months of sustained Tier 3+ performance and Department Director approval.

MANAGEMENT PREROGATIVE ON REVOCATION:
Department Vice Presidents possess full operational authority to modify or revoke remote arrangements for teams or individuals when business needs, customer escalation trends, or collaborative deliverables require sustained in-person co-location.

Article 9. Company Hardware Custody, Equipment Refresh & Offboarding Asset Recovery

9.1 Asset Tracking, 3-Year Refresh Cadence & Prepaid Return Logistics

All hardware equipment provisioned by Nexus—including MacBook Pro and Lenovo ThinkPad laptops, external monitors, docking stations, and security hardware tokens—remains the sole legal property of Nexus Corporation. Employees are designated as custodial trustees of company assets and are responsible for exercising reasonable care to prevent damage, loss, or unauthorized access. All assets are assigned a unique barcode asset tag registered in the enterprise IT Asset Management (ITAM) database.

Nexus operates a standard 36-month hardware refresh lifecycle for engineering and technical roles, and a 48-month lifecycle for operational roles. Upon reaching the refresh threshold, IT Logistics automatically ships a new, pre-configured laptop to the employee residence with automated data migration software. Upon separation from employment—whether voluntary or involuntary—all corporate hardware must be securely returned to Nexus within 5 business days using prepaid, insured shipping containers dispatched by IT.

Hardware Asset Type	Standard Provisioning Spec	Refresh Lifecycle	Employee Custody Obligation	Offboarding Return Mandate
Engineering Laptop	Apple MacBook Pro 16" M3 Max / 64GB	36 Months (3 Years)	Keep encrypted; no personal use	Must return within 5 business days
Business / Operations Laptop	Lenovo ThinkPad X1 Carbon / 32GB	48 Months (4 Years)	Keep encrypted; install corporate software	Must return within 5 business days
Hardware Security Key	Yubico YubiKey 5C NFC (Pair)	Replace upon damage/loss	Attach to personal keychain; protect credentials	Must return or verify destruction
Dual Display Monitors	Dell UltraSharp 27" 4K USB-C Hub	60 Months (5 Years)	Maintain in home workspace	Employee may retain if tenure > 2 yrs
Peripherals & Cables	Logitech MX Master 3S Mouse & Keys	Replaced as needed	Careful daily operation	Employee may retain upon departure

- Laptops not returned within 10 business days of separation are declared stolen property, remotely wiped, and referred to law enforcement.
- Employees are not held financially liable for accidental hardware damage covered under AppleCare+ or Lenovo Accidental Damage Protection.
- Gross negligence, intentional destruction, or loss of equipment may result in payroll deductions to the extent permitted by law.

EQUIPMENT RETURN LOGISTICS:
Upon resignation or termination, IT Logistics dispatches prepaid FedEx shipping boxes with custom molded foam to your home address. Pack all hardware securely and drop off at any authorized FedEx location within 5 business days of your final day of employment.

Article 10. Medical Remote Accommodations, Caregiver Flexibility & Temporary Exceptions

10.1 ADA Remote Work Accommodations, Interactive Dialogue & Temporary Flexibility

Nexus Corporation is deeply dedicated to providing reasonable accommodations to qualified individuals with physical or mental disabilities under Title I of the Americans with Disabilities Act (ADA) and the ADA Amendments Act (ADAAA). When an employee documented medical condition prevents regular commuting or physical on-site presence, full-time remote work may be evaluated and granted as a reasonable accommodation through a structured, good-faith interactive process with People Operations.

Employees seeking medical remote accommodations must submit a formal Accommodation Request through the HR Benefits Portal, accompanied by documentation from a licensed healthcare provider outlining the functional limitations and duration. In addition, Nexus provides Temporary Caregiver Flexibility allowing employees experiencing family medical emergencies or childcare crises to work 100% remotely for up to 30 calendar days upon Department Director approval, without requiring formal ADA certification.

Accommodation Category	Qualifying Criteria	Medical Documentation	Approval Timeline	Review & Recertification
Permanent ADA Remote Track	Documented physical or mental disability	Licensed physician medical certification	Interactive dialogue in 5 business days	Annual medical recertification
Temporary Medical Remote	Post-surgical recovery, pregnancy, injury	Physician note with estimated return date	Expedited approval within 48 hours	Re-evaluated every 60 days
Emergency Caregiver Exception	Acute family medical emergency or crisis	Self-certification form in HR Portal	Director approval within 24 hours	Maximum 30 days per event
Immunocompromised Protection	Documented immunosuppressive therapy	Oncologist / Specialist clinical note	Immediate temporary remote status	Biannual clinical review
Neurodivergent Work Modality	ADHD, autism spectrum, sensory needs	Clinical psychologist assessment report	Interactive workspace adaptation	Annual check-in with HR Lead

- Remote accommodation determinations are made on an individualized, case-by-case basis considering essential job functions.
- Medical documentation is stored in an encrypted HIPAA-compliant vault accessible exclusively to the HR Benefits team.
- Denial of a requested accommodation is reviewed by the Chief Legal Officer and Chief People Officer before final notice.

ADA INTERACTIVE PROCESS SLA:
People Operations initiates the interactive accommodation dialogue within 5 business days of receiving medical documentation. During the evaluation period, temporary remote work is granted to safeguard employee health without prejudice.

Article 11. Compliance Auditing, Spot Inspections & Revocation of Remote Privileges

11.1 Quarterly Badge Telemetry Audits, Spot Security Checks & Formal Appeals

To maintain equity, transparency, and operational accountability across our hybrid workforce, People Operations conducts regular Quarterly Compliance Audits of on-site attendance data. Badge swipe telemetry from facility turnstiles is cross-referenced with approved remote schedules in Workday to verify adherence to mandatory Tuesday and Thursday in-office commitments. Employees who fall below 80% compliance with mandatory on-site days within a single quarter are flagged for supervisory compliance review.

First compliance flags trigger a documented counseling conversation between the employee and manager. Continued non-compliance in the subsequent quarter triggers formal revocation of remote privileges and a mandatory 5-day on-site requirement for a minimum of 90 calendar days. Employees who believe a revocation was issued in error or due to extenuating personal circumstances may submit a formal written appeal to the Employee Relations Appeals Panel within 7 business days of revocation notice.

Audit Dimension	Audit Mechanism	Audit Frequency	Accountability Authority	Escalation & Consequences
Badge Swipe Verification	Automated turnstile security logs	Monthly data pulls / Quarterly audit	People Operations Operations Lead	Compliance flag sent to manager
Security Endpoint Posture	CrowdStrike & Jamf posture scans	Continuous automated telemetry	Security Operations Center (SOC)	Automated VPN block upon failure
Workday Time Tracking	Daily timesheet clock-in audits	Bi-weekly payroll close review	Payroll Compliance Manager	Mandatory overtime correction / PIP
Broadband Speed Validation	Self-reported quarterly speedtest	Quarterly attestation check	IT Service Desk Operations	Follow-up ISP review / subsidy review
Home Safety Attestation	Annual virtual ergonomic checklist	Annual attestation in January	Facilities Safety Operations	Mandatory ergonomic retraining

- Badge data is used strictly for aggregate policy compliance verification and never for micromanaging individual movement.
- Managers cannot grant permanent verbal exemptions from mandatory in-office days; all exemptions require written VP approval.
- Appeals submitted to the Employee Relations Appeals Panel receive a final binding written decision within 10 business days.

ANNUAL REMOTE WORK AGREEMENT:
All hybrid and remote employees must review, sign, and re-certify their Remote Work Agreement by January 31st of each calendar year. Failure to complete the annual re-certification will result in automatic suspension of remote privileges.

Article 12. Corporate Governance, Statutory Tax Disclosures & Executive Authorization

12.1 Regulatory Alignment, Telecommuting Tax Compliance & Policy Governance

This Remote Work & Hybrid Workplace Policy operates under the legal governance of the Executive Leadership Team and the Board Compensation Committee of Nexus Corporation. The policy is designed in strict compliance with federal, state, and local employment regulations, including the Fair Labor Standards Act (FLSA), Occupational Safety and Health Act (OSHA), Americans with Disabilities Act (ADA), Internal Revenue Code Section 132 (fringe benefits), and international telework directives across our operating entities.

Employees are reminded that home office tax deductions under federal IRS rules are generally restricted for W-2 corporate employees under the Tax Cuts and Jobs Act (TCJA). Nexus does not provide personal tax advice, and employees are advised to consult a certified tax professional regarding state tax withholdings, local commuter taxes, and home office considerations. This policy supersedes all prior local agreements, manager exceptions, and verbal representations regarding remote work cadence and arrangements.

Governance Pillar	Statutory Framework	Oversight Committee	Enforcement Responsibility	Annual Calibration Cycle
Fair Labor Standards (FLSA)	29 U.S.C. Chapter 8 (Overtime)	Wage & Hour Compliance Board	People Operations & Payroll	Biannual audit of non-exempt hours
Occupational Safety (OSHA)	29 U.S.C. 654 (General Duty)	Facilities Safety Committee	Director of Global Facilities	Annual home safety audit report
Tax Nexus & Withholding	IRS Code & State Tax Statutes	Corporate Tax & Finance Team	Chief Financial Officer (CFO)	Quarterly multi-state tax review
Data Security & Export	NIST 800-53 & OFAC Regulations	Cybersecurity Governance Board	Chief Information Security Officer	Continuous automated compliance
Disability Accommodations	ADA Title I & Rehabilitation Act	Accommodations Review Board	VP of People Operations	Annual EEO calibration review

- Nexus reserves the right to amend, suspend, or terminate this policy at any time upon 30 days written notice to employees.
- Questions regarding policy interpretation should be submitted via the HR Help Desk portal under 'Workforce Mobility'.
- Retaliation against any employee exercising statutory rights under telework accommodation provisions is strictly forbidden.

EXECUTIVE RATIFICATION CLAUSE:
This policy has been formally ratified by the Chief People Officer, General Counsel, and Chief Financial Officer of Nexus Corporation effective January 1, 2026, establishing binding operational standards for all global operations and operating subsidiaries.

Document Governance, Audit History & Statutory Authorization

Revision	Release Date	Author / Department	Summary of Regulatory Changes
v1.0	Jan 15, 2024	People Operations Taskforce	Initial corporate codification of all baseline policy categories. Full legal review by General Counsel and Board HR Committee completed.
v2.0	Nov 10, 2024	Legal & Compliance Committee	Updated statutory bereavement protections. Expanded FMLA/ADA interactive accommodation and civic duty leave provisions with state-level addenda.
v3.0	Jan 01, 2025	Executive Total Rewards Council	401(k) match enhanced to 4% dollar-for-dollar. Parental leave extended from 12 to 16 weeks (primary) and 4 to 6 weeks (secondary caregiver).
v4.0	Oct 15, 2025	Global Workforce Mobility Team	Formalized 20-day international remote cadence with tax residency affidavits, data sovereignty checks, and OFAC sanctioned-country network blocks.
v5.0	Jan 01, 2026	Chief People Officer & General Counsel	Annual consolidation. AI triage citation integration, SHA-256 digital signature records, CSPM policy additions, and GDPR Article 33 breach notification alignment.

Signatory Role	Authorized Representative	Approval Status	Digital Signature Hash
Chief People Officer (CPO)	Elena Rostova, SPHR	APPROVED & RATIFIED	SHA256: 7f8a9b2c3d4e5f6a7b8c9d0e1f2a3b4c5d6e7f8a...c1d2e3f4
General Counsel & VP Legal	Marcus Vance, Esq.	COMPLIANCE VERIFIED	SHA256: 9b2c3d4e5f6a7b8c9d0e1f2a3b4c5d6e7f8a9b0c...e4f5a6b7
Chief Financial Officer (CFO)	David H. Sterling, CPA	FISCAL BUDGET RATIFIED	SHA256: 3d4e5f6a7b8c9d0e1f2a3b4c5d6e7f8a9b0c1d2e...a7b8c9d0
VP People Operations & Audit	Sarah Jenkins, SHRM-SCP	AUDIT CERTIFIED	SHA256: 5f6a7b8c9d0e1f2a3b4c5d6e7f8a9b0c1d2e3f4a...c8d9e0f1

Statutory Disclosure: This official regulatory document constitutes binding corporate policy for Nexus Corporation and all operating subsidiaries. Questions regarding statutory interpretation, policy exceptions, or accommodation requests must be submitted to People Operations via the Employee Portal within 10 business days. Unauthorized reproduction, distribution, or external disclosure outside authorized personnel channels is strictly prohibited under applicable trade secret and confidentiality law. This document supersedes all prior versions and verbal representations.
